Dear Sir/Madam

Please find enclosed letter of concern, in regards to the York St. interchange,
from the Residents of Molyneaux Street and the lower half of Little Georges St.

Many Thanks
B. Caughey

REF: York Street Interchange

To Whom It May Concern

We the Residents of Little George's Street and Molyneaux Street wish to express our concerns in regards to the forthcoming York Street Interchange.

We believe that the development of this Interchange will affect the Residents of both these Streets in the following ways.

Both Streets

- The disruption cause by the 3 years construction of the Interchange, in the way of dust, dirt and noise , especially noise if most of the construction is carried-out at night,
- The increase in noise and air pollution when the Interchange is completed and is operational
- The potential for flooding in the underpasses.

Little George's Street

- The widening of the West Link, which will bring the West Link closer to the backs of the Houses in the upper half of Little George's Street and increase the noise and air pollution to these houses.
- The heightening of the retaining wall at the back of the houses and the erection of a sound barrier on top of this, which will block out light to these houses and so deprive the residents of the Right To Light.

Molyneaux Street

- The removal of the official Peace Wall at the bottom of Henry St, which will lead to the loss of protection to the Residents and their properties in Molyneaux St.
- The York Street Bridge will enable pedestrians to look down on the house in Molyneaux St, and so take away the Residents right to privacy in their own homes.

These are just some of the main concerns that the resident would have and would appreciate if these concerns could be address

Thanking you in advance
